

# AI Government Scheme Finder for Bharat

**Hackathon:** AWS AI for Bharat

**Participant:** Harshil Jain

Connecting citizens with the right government benefits.

## **Problem Statement**

- Hundreds of government schemes exist
- Citizens don't know eligibility
- Language & digital literacy barriers
- Dependence on agents

## **Proposed Solution**

AI-based platform that:

- Takes basic user details
- Finds eligible schemes
- Explains in simple Hindi & English

## How It Works

1. User enters details
2. AI analyzes eligibility
3. Relevant schemes shown
4. Steps & documents provided

## **Key Features**

- ✓ Personalized recommendations
- ✓ Multilingual support
- ✓ Mobile-friendly
- ✓ CSC & NGO usable

## **Technology Stack**

Frontend: Web / Mobile

Backend: Python / Node.js

AI: NLP-based summarization

Database: Government schemes

## **Impact on Bharat**

- Increased scheme awareness
- Reduced middlemen
- Better government reach
- Digital inclusion

## **Conclusion**

**AI Government Scheme Finder** bridges the gap between citizens and government.

**AI for Bharat = AI for Every Indian ■■**
